## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Groups I, claim(s) 1-3, in part, drawn to a peptide comprising SEQ ID NO: 1 and a method of treating a patient suffering from Multiple Sclerosis comprising administering an effective amount of a peptide of SEQ ID NO: 1.

Groups II, claim(s) 1-3, in part, drawn to a peptide comprising SEQ ID NO: 2 and a method of treating a patient suffering from Multiple Sclerosis comprising administering an effective amount of a peptide of SEQ ID NO: 2.

Groups III, claim(s) 1-3, in part, drawn to a peptide comprising SEQ ID NO: 3 and a method of treating a patient suffering from Multiple Sclerosis comprising administering an effective amount of a peptide of SEQ ID NO: 3.

Groups IV, claim(s) 1-3, in part, drawn to a peptide comprising SEQ ID NO: 4 and a method of treating a patient suffering from Multiple Sclerosis comprising administering an effective amount of a peptide of SEQ ID NO: 4.

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Claims 1-3 broadly encompasses the amino acid sequences of 4 different polypeptides. The amino acid sequences of Groups I-IV are composed of different amino acids and are structurally and functionally unrelated, each to each other. Accordingly, each of the 4 different protein sequences recited in claims 1-3 are not so linked under PCT Rule 13.1 and are thus placed in 4 different inventive Groups numbered I-IV, respectively.

Art Unit: 1647

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
